

Environmental Policy

We at Boxprint and Packaging strive to achieve an unpolluted environment in all our activities, products and services by our continued commitment towards environmental excellence through a defined management system.

We are committed to integrating EMS practises in our various processes by:

- Conserve natural resources through Reuse, Recycle and Reduce
- Complying with all applicable legal and other requirements
- Our commitment to the prevention of pollution through effective control measures
- Imparting training and awareness to all our employees
- Periodically reviewing the established system

Our policy is achieved through a dedicated team committed to continual improvement, compliance with legislation and pollution prevention.

Our company policy and vision is not limited to our satisfied customer, but extended to the reduction of pollution and environmental excellence.
